■ JONGEREN UIT NEDERLAND

Introduction Days

Manifest

You live in a community with young people of diverse backgrounds and share the same goal: make a great start in Amsterdam.

You go get to know one another, become buddies and build a strong diverse network.

You work together in maintaining the grounds, the communal living spaces and outside areas.

You always keep an eye on each other in order to feel safe within the community.

You inspire each other to develop yourself both professionally and personally.

You grow and get more experienced as a person in order to take the next step.
