

Call for Practices in Ending Youth Homelessness:

Last month FEANTSA published our [European Framework for Defining Youth Homelessness](#). Our adaptable framework highlights the need for youth oriented solutions and services tailored to the specific needs of young people experiencing homelessness.

As a follow-up to our framework FEANTSA is compiling practices to combat, prevent and end youth homelessness in Europe. If you work for or know a service that is supporting young people experiencing or at risk of experiencing homelessness we'd like to hear from you. We are interested in all services serving young people, and are particularly interested in the following topics:

- Youth leaving care
- Young migrants
- LGBTIQ youth
- Young women
- Substance use
- Mental health services
- Sex work
- Family conflict and violence

Selected practices will be included in a compendium of best practices to be published by FEANTSA.

We invite interested services to fill out this [short survey](#), after which we will be in contact for more information.

You can also contact Robbie for more information, robbie.stakelum@feantsa.org
