

Peer work in health settings

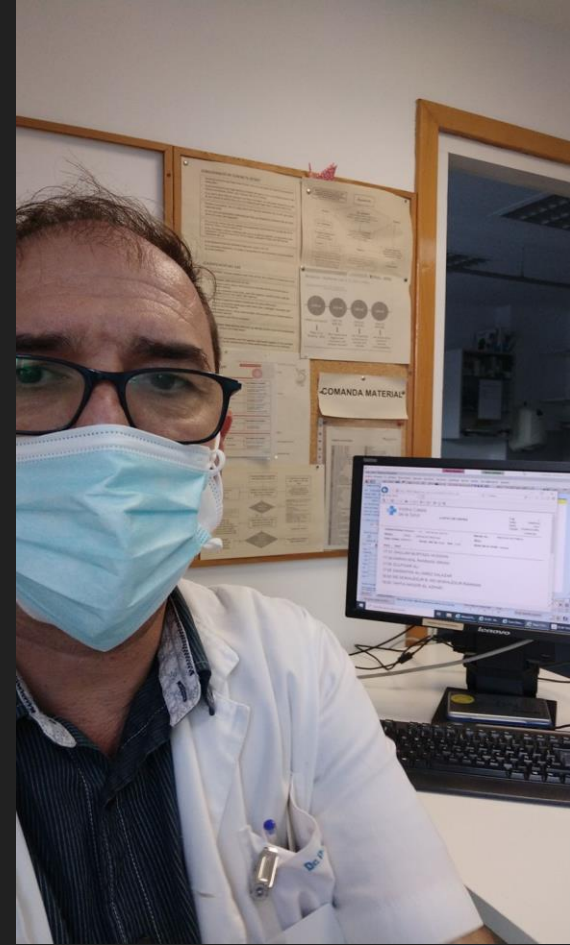

Barcelona Primay Health Care Services

Daniel Roca (General Practitioner)

FEANTSA's WEBINAR DECEMBER 14TH

CAP Raval Sud (Drassanes)

- 1500 assigned patients
- 35-40 daily visits (25 in person)
- 1 emergency day per week (40-50 visits)

Primary care practitioner (GP)

CAS BALUARD HARM REDUCTION AREA

About 1000 new different users
every year.

CAS Baluard
group activity

MEDICAL POINT OF VIEW

- Lack of knowledge about:
 - Homeless people reality.
 - Harm reduction facilities.
 - Training on addictions.
 - Sensitivity to work in a peer-to-peer team.

"Quan les persones sense sostre arriben a un centre sanitari acostumen a arribar-hi en situacions molt crítiques"

Daniel Roca metge família CAP Drassanes

Spread the word...

Effective Medical Care for Homeless people

- Accessibility.
- Create a solid relationship bond based on trust and credibility.
- Leave medical offices.
- Establish a fluid coordination with the rest of medical and social services.
- Real multidisciplinary work.
- Peer workers training in health issues.
- Peer work team integration.
- Engagement to specific health programmes (HCV, STD, TBC...)

From volunteers to peer-to-peer

workers!!!

Collaboration between Arrels Foundation and CAP Raval Sud
